CONTRACT FOR WATER SERVICE

The undersigned hereby requests to be supplied with water by Public Water Supply District No. 12 of Jefferson County, Missouri (District), for this purpose shown on sheet 1 of this agreement and none other. As a part of the consideration to the District in providing water, the applicant agrees to the following:

1. The water service supplied by the District shall be for the sole use of the undersigned; the undersigned agrees that he/she will not extend or permit the extension of pipes for transferring water from one property to another, nor will he/she share, resell or sub-meter water to any other consumer. Each meter service shall supply water to only one residence or business establishment located on land within the District.
2. Applicant, his/her heirs, and assigns grants and convey to the District an easement in the fifteen (15) feet of his property adjacent to any road used by the general public, and in all streets, roads and sidewalks that applicant or owner has any interest, in for the purpose of laying, upgrading, maintaining and removing water pipes, meters, pumps and all other water system equipment, below or above the surface of the land, convenient to the operation of the water system, together with the right of ingress and egress to the above described easement. Applicant, his/her heirs and assigns agree to make no claim of ownership of and to any water system equipment installed in the easement, as above described, by the District or its assigns, and shall not hereafter claim or demand any right or title to the aforesaid equipment or easements. The District will repair any damage caused by the District in installing and maintaining any facilities in said easement; and all such lines, meters and facilities installed shall remain the sole property of the District, even if they were purchased and installed by the property owner/water user.
3. Applicant must bear the cost and responsibility of the installation, maintenance and repair of any water line from the meter pit to the home or business. All such work subject to the approval of the District.
4. Applicant hereby tenders \$ _____ as a water meter deposit and guarantee that his/her bills will be paid monthly and an additional \$ _____ for meter setting and service line charge. The meter setting and service line charge will not be refunded if water service connection is made available to the water user. The meter deposit will be refunded when service is discontinued, and all charges and bills are paid.
5. Applicants, his/her heirs and assigns, agree to claim no damage because of the interruption, stoppage or decrease in flow of water or any change in water pressure. The District **STRONGLY** recommends the installation of a pressure regulator and main shut-off valve in an accessible location for the applicant's use.
6. Applicant agrees that all water bills and charges will be paid at the current rate charged by the District, payable at the office of the District on or before the fifteenth (15th) day of the month or be subject to a late charge of 10% until applicant orders the water to the described premises cut off. If bills are not paid, the water service may be discontinued until the bill is paid. No water service will be resumed at any premise until all delinquencies due from that meter service have been paid. Should water service be disconnected for non-payment, a \$40.00 reconnect charge will apply to the account and shall be paid, along with delinquent charges, before water service is restored. Tampering with the meter or lock will result in an additional \$50.00 Tampering Fee in addition to the Reconnection Fee and any damages due to the tampering and may result in prosecution.
7. Should payment for water service be returned for any reason (including electronic payments) by the applicant's banking institution, the District will make every effort to notify the applicant of the situation. Applicant agrees to pay a \$25.00 fee in addition to the returned payment amount within 3 days of bank notification to the District. Payment of said fees must be paid in cash or money order. If payment is not made, water service will be disconnected until said fees are paid in full to the District. If a water user has two (2) payments returned from the applicant's banking institution, the water user will be limited to a cash or money order only payment basis on said account for the remainder of the account.
8. Applicant agrees that nothing herein shall be construed as requiring the District to furnish water to the premises described.
9. In order to comply with state and local Health Department requirements, it is required, and applicant agrees, that water furnished by the District will not be connected in any way with any water from an unapproved source, and the District shall have the absolute right to enter upon the property to inspect the premises to determine if all rules of the District are being observed.
10. Applicant represents the information set out on sheet 1 of the contract, is true and accurate and agrees to comply with all rules and regulations now in force, or hereafter made by the District, any representations in conflict therewith notwithstanding. Notifying the District of changes in contact information is the responsibility of the applicant.
11. If an applicant moves or vacates the property or residence, he or she is responsible for informing the office of the move or vacancy. The meter will continue to be read, and a minimum bill generated even if no water is being used until the office is notified of the move or vacancy.
